HAPPY NEW YEAR FROM SHEA!

**Transportation
company Trimac
begins Hyundai
hydrogen truck pilot**

**Plug Power Installs
5MW GenEco
Electrolyzer for
Africa's First Fully**

Trimac has begun a pilot program testing Hyundai hydrogen fuel cell trucks in Western Canada to evaluate real-world performance and operational requirements. The regional trial aims to build industry knowledge of hydrogen systems and support future adoption of zero-emission trucking solutions.

Virginia Energy Awards \$750,000 in Southwest Virginia Hydrogen Hub Planning Grants

Virginia Energy has awarded \$750,000 in planning grants to advance a Southwest Virginia hydrogen hub, supporting clean hydrogen production, storage, and end-use projects. The funding will help coalfield communities assess pilot projects, build workforce pathways, and position the region for economic revitalization in the emerging hydrogen economy.

Integrated Green Hydrogen Facility

Plug Power has installed a 5 MW GenEco electrolyzer for Cleanergy Solutions Namibia, enabling Africa's first fully integrated commercial green hydrogen facility. Powered by on-site solar and battery storage, the project supports hydrogen mobility at the Port of Walvis Bay and positions Namibia as an emerging regional hydrogen hub.

SHEA Funding Opportunities

**Want to join the Southeast Hydrogen
Energy Alliance?**

SHEA offers a unique value proposition as the catalyst for a sustainable future in the Southeast and beyond. By joining SHEA, you gain exclusive tools to help increase your company's commerce, educational materials to help back your every decision, and access to a thriving community dedicated to transforming the region into an epicenter of clean energy. Your SHEA membership helps secure a brighter, greener tomorrow.
